TECHNICAL REQUIREMENTS CHECKLIST

For the best learning experience, students should meet the following recommendations for all programs:

☐ DEVICE & OPERATING SYSTEM

- A laptop or desktop computer running Windows 7 and above or macOS 10.10 and above.

- Memory: 4 GB or higher (RAM)

- Hard Drive: 60 GB (macOS High Sierra and Windows 10 require 16 GB)

- Processor: Intel i3 (equivalent or higher)

- **Note:** Chromebooks (Chrome OS), iPads (iOS), Android devices and iPhones should not be a primary device.

☐ HARDWARE/PERIPHERALS

- A built-in or external microphone and webcam.

- **Note**: Some students have found it helpful to possess additional peripherals, such as a printer and headphones or a headset, although these are not required unless specified by your program.

☐ INTERNET CONNECTION

- Must have consistent access to the internet.

- At least 2 MB upload and download speed; a high-speed broadband connection is recommended.

☐ BROWSER

- Mozilla Firefox or Chrome are preferred browsers.

- **Note**: Safari, Microsoft Edge and Internet Explorer may be used for some coursework but will not give students the best experience overall.
